MESSAGE

Providing efficient and reliable visualizations of internal bodily structures is among the most crucial medical procedures that must consistently be given attention. With this, I recognize the commitment of the subspecialty societies of the Philippine College of Radiology, the **Computed Tomography & Magnetic Resonance Imaging Society of the Philippines (CT-MRISP)**, and the **Ultrasound Society of the Philippines (USP)** in advancing the science and practice of medical imaging, which are highly critical to producing timely, accurate, and comprehensive diagnosis.

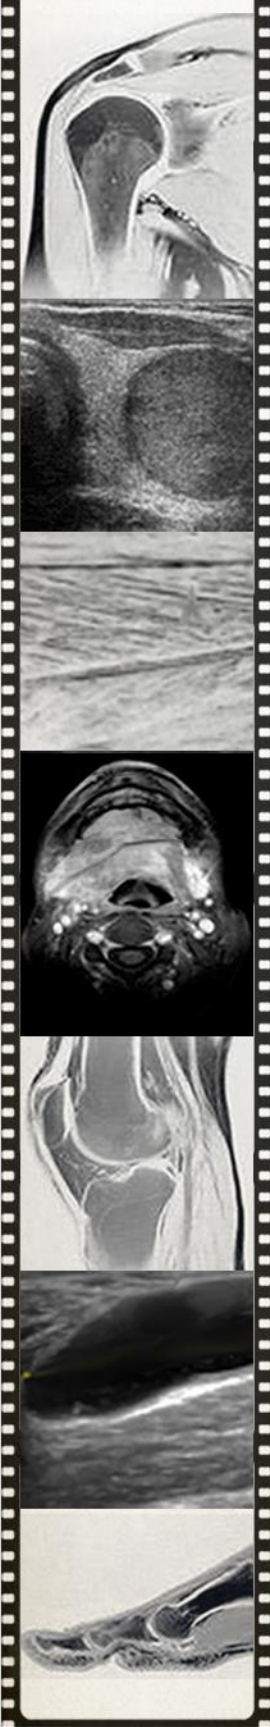

It is thus with great delight that I express my utmost support to the organizers, presenters, and members of the USP and the CT-MRISP as you hold your **2024 Joint Annual Convention**. Indeed, this is a gathering of brilliant minds who champion the use of radiologic technologies aimed at guiding our doctors and other allied practitioners in formulating improved treatment plans and offering exceptional patient care. May this event be a platform for discussing innovative approaches that will further contribute to the development of your specialized field and elevate the standard of our country's healthcare services.

Let our shared responsibility of catering to the needs of every Filipino enable us to fulfill our endeavors with utmost competence and integrity so we can continue building a healthier and more revitalized *Bagong Pilipinas*.

I wish you a purposeful and engaging assembly.

FERDINAND R. MARCOS JR.

THE PRESIDENT OF THE PHILIPPINES

MESSAGE

Greetings to all the organizers and participants of the Joint Annual Convention of the CT-MRI Society of the Philippines (CT-MRISP) and the Ultrasound Society of the Philippines (USP)!

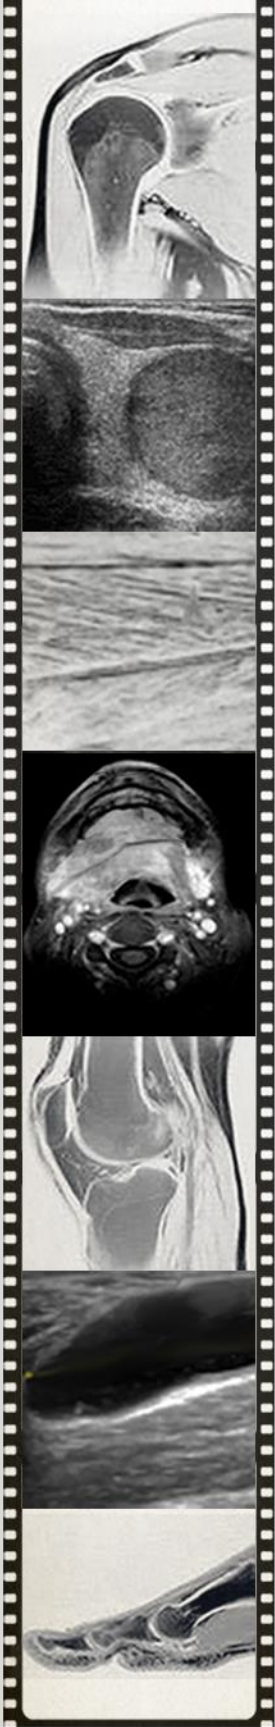

As imaging specialists, you provide the crucial insights that help physicians diagnose, treat, and heal. Your work is essential not only in detecting diseases but also in guiding life-saving interventions. Whether it's identifying head and neck issues or visualizing musculoskeletal conditions, your expertise directly impacts patient outcomes and strengthens our healthcare system.

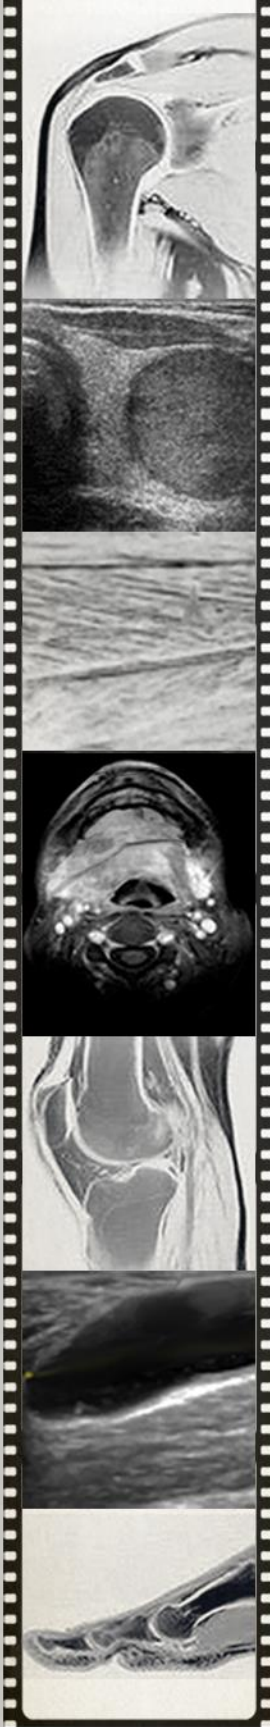

As we move forward with Universal Health Care, your role becomes even more vital. Innovations in imaging technology and radiology allow for more precise and timely diagnosis, helping reach patients nationwide, particularly in underserved communities. This aligns closely with the Department of Health's (DOH) 8-Point Action Agenda, which aims to provide more accessible, safe, and equitable healthcare for all Filipinos, ensuring that *bawat Pilipino, ramdam ang kalusugan*.

I commend all of you for your dedication and commitment to excellence. As you gather to learn, share, and explore the latest advancements, know that your work is making a significant difference in building a healthier nation.

Sa Bagong Pilipinas, Bawat Buhay Mahalaga!

TEODORO J. HERBOSA, MD
Secretary of Health

MESSAGE

I am deeply honored to congratulate the CT-MRI Society of the Philippines (CT-MRISP) and Ultrasound Society of the Philippines (USP) as you hold your Joint Annual Convention with the theme "Sense and Motion: Essentials and Updates in Head and Neck and Musculoskeletal Imaging".

The PMA lauds your efforts to actively seek out opportunities for professional development and continuing medical education through seminars and lectures as this. By staying current with the latest advancement in medicine you can ensure providing the most effective and up to date care for your patients.

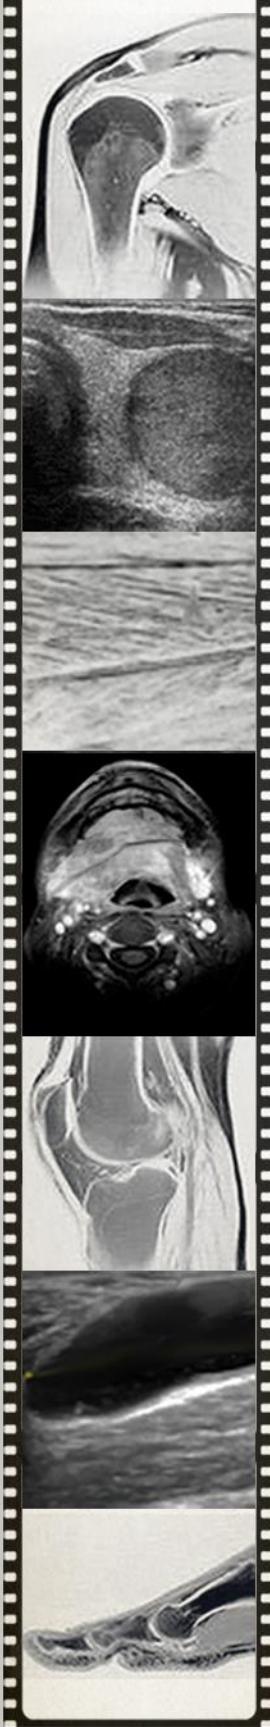

Against the backdrop of numerous challenges encountered in the field of Radiology you remain steadfast and resilient . By sharing your best practices, innovations and experiences you deepen your knowledge through collaboration and find ways to work on a wider and more impactful scale. I hope that from this convention all our physicians and allied health professionals will become more equipped and concrete and collaborative directions in the future.

The Philippine Medical Association recognize your sacrifices and hard work. We stand as a permanent partner and friend to all health workers and frontliners across the country. We shall all work as one.

"Nagkakaisang PMA: Hatid ay Kalusugan para sa lahat!

I wish you a successful post graduate Course!

Hector M. Santos, Jr. MD, MMHA
President
Philippine Medical Association

MESSAGE

Greetings!

In behalf of the Board of Trustees of the Philippine College of Radiology, I congratulate the CT-MRI Society of the Philippines and the Ultrasound Society of the Philippines in coming up with a more innovative Joint Annual Convention with theme of Sense and Motion: Essentials and Updates on Head and Neck and Musculoskeletal Radiology. Indeed these two big component subspecialty societies under the PCR have been instrumental in pioneering educational activities focusing on modality imaging. For the next three days, we will be given in depth knowledge on head and neck and musculoskeletal imaging, systems important to learn since cerebrovascular disease, neoplasm, infection and trauma remain in the top ten cause of mortality in the 2023 Philippine statistics.

Learning and leadership are indispensable to each other. These two values are strongly manifested in all their program, activities and plans. And through the years, the leadership of these two societies have been progressive in ensuring the quality education and training our fellows can acquire as we produce the best generalists or general radiologists catering to 116 million Filipinos.

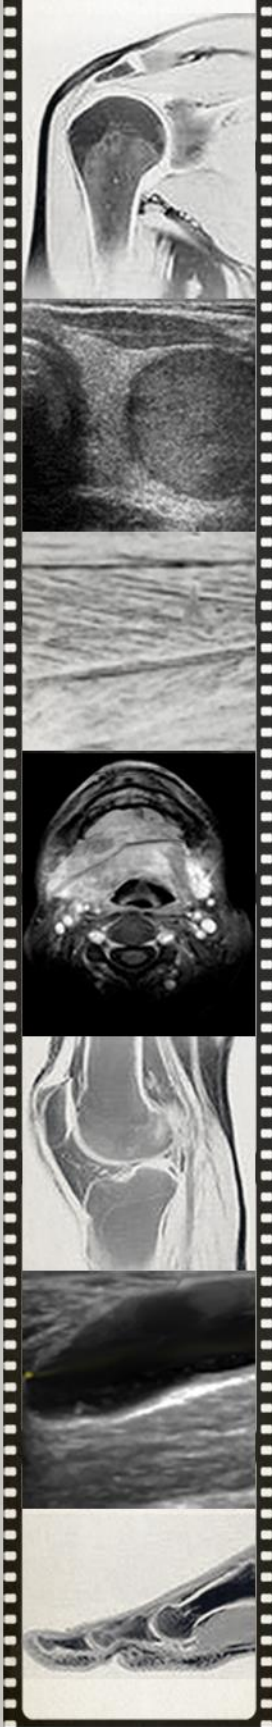

Indeed as the times change and the needs for a more specialist approach to education and practice of medicine multiply, the essential demand for general radiologists, as expert to all the body systems, is still significant and escalating as the Philippine population balloons. It is not a hidden fact that a big part of the country still entails the expertise of sonologists and multiplanar imaging specialists so as to alleviate the current ratio of 1 radiologist:46,400 Filipinos. Eventhough the metropolis might need diagnostic specialist focusing on systems, a big portion of the country need a whole body expert who can do all imaging from plain radiographs, to operating an ultrasound machine and interpreting multiplanar imaging. Everybody has a niche under the sun and there are a myriad of ways we can deliver quality healthcare service to every kind of need, to every Filipino in all the corners of this great country.

Truly knowledge is not acquired by chance. On the contrary it is achieved with ardor and diligence so let me congratulate also all the participants in this annual convention. To the consultants who are attending, although you might just be representing the 2642 fellows of the PCR, 941 fellows of the USP, and 854 fellows of the CTMRISP, may the learning you will acquire be translated into education that you will impart to our trainees, excellent and up to date diagnostic results and appropriate regulations that will benefit the Filipino patients. To the 61 fellowship inductees of the USP, 93 fellowship inductees of the CTMRISP and the 130 trainees of both societies, may you always be guided in your endless pursuit of knowledge as you shape the future of Philippine radiology.

Lastly I present a challenge to the USP and CTMRISP to indefatigably search for more training institutions especially outside the metropolis, untiringly cease opportunities for innovation, vigorously revolutionize education and dynamically reform policies that will further improve radiology practice in the country. May you continuously be constant and steadfast allies of the PCR as we rally Philippine radiology into a brighter future not only for our potential trainees, upcoming radiologists but moreover for every citizen our loved motherland.

Maraming salamat po.

Marc James D.C. Delos Santos, MD, FPCR
President
Philippine College of Radiology

MESSAGE

Warmest greeting to all!

It is with great pride and joy to present to you the 2024 Joint Annual Convention of the Ultrasound and CT-MRI Society of the Philippines. As we continue to improve our knowledge and expertise in ultrasound and CT MRI imaging, the organizing committee has prepared this well-balanced three-day event. "Sense and motion", the two very important themes, tackle essentials in imaging and evaluation of the head and neck and musculoskeletal system.

We have long been creating densely-packed evaluation criteria in all the body parts for diagnosis and management of certain conditions, intentionally or unintentionally leaving a great gap in these two areas where accuracy and expertise of an imaging specialist in diagnosis is much needed.

At this juncture our Joint Annual Convention will tackle the dilemma in important topics of the head and neck and musculoskeletal system with special lectures of foreign and local gurus, didactics, workshops and hands-on learning experience.

These programs should greatly improve our practice and establish confident communication and collaboration with our fellow clinicians.

I encourage each of you to actively participate, share your insights, and connect with fellow practitioners. It is through our collective efforts that we can continue to elevate the standards of our profession.

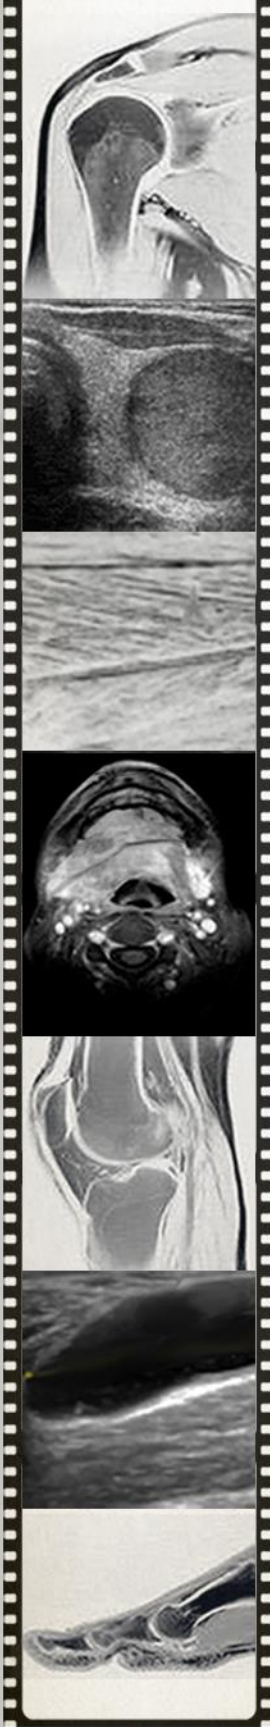

I would like to thank the organizing community and board of trustees of both Ultrasound and CT-MRI Society of the Philippines, the local and foreign lecturers, our supportive industrial members, and all the persons who in a way have contributed to the success of this Joint Annual Convention.

May we make it a habit to update ourselves in our chosen specialty and establish collaboration and camaraderie on the process.

May you have an enjoyable and fun learning experience in these 3-day event. Welcome and thank you so much!

Francis R. Villanueva, MD, FPCR
President

Ultrasound Society of the Philippines

MESSAGE

Welcome to the 2024 Joint Annual Convention!

It is a joyous opportunity to welcome everybody to the 2024 Joint Annual Convention with theme, "Sense and Motion: Essentials and Updates in Head and Neck and Musculoskeletal Imaging". After recognizing the effects of physical isolation, the importance of social interactions through face-to-face communication can no longer be disregarded. Even with the convenience and lesser logistics requirements of virtual meetings, still, we all long to be in one venue while learning and enjoying the company of colleagues and friends. For these and other unsaid reasons, allow me to thank and congratulate the boards of the CT-MRISP and USP, the organizing committee, industrial partners and supporters for all their time, talents and hard work for putting together our annual convention and making sure it will be a great success. The challenges hurdled during the preparations every year remain unique each time and it is truly commendable because the gamut of collaborative efforts of the organizers behind it make sure all is well and glued together that the JAC unfolding every year seem seamless on the outside.

I am also grateful to the faculty, trainers, moderators and volunteers who unselfishly share their knowledge and skills during our 3-day convention and making sure that transfer of knowledge will all be worthwhile. To produce an hour of lecture or workshop agenda, the speakers will need to prepare for them for weeks and months just so that the final output will be meaningful for the advancement of imaging using CT-MRI and ultrasound modalities. These are not easy tasks, and, simple thanks are not enough for them who truly serve the medical and paramedical fields well.

To the attendees and registrants, the JAC committees always keep you on top of the list of our priorities. You will always be one of the main reasons why both CT-MRISP and USP does JAC and aim for perfection. We are grateful for your push made through your requests, feedbacks and needs. We hope we do better every time and live up with the principles of our two subspecialty societies, as well, as of PCR.

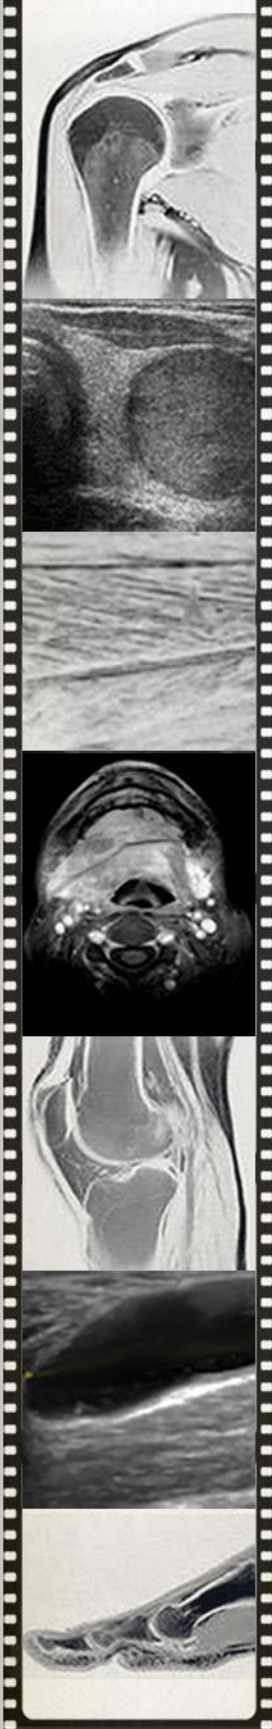

In behalf of the CT-MRISP, I am greeting everybody cordially and look forward to meeting you again. I am humbled and honored by your presence.

Mabuhay!

Rico V. Gacutan, MD, FPCR

President

CT-MRI Society of the Philippines

MESSAGE

Greetings!

I am pleased and honored to welcome everyone to the 2024 Joint Annual Convention of the CT-MRI Society of the Philippines and the Ultrasound Society of the Philippines.

The theme of this year's convention is "Sense and Motion: Essentials and Updates in Head and Neck and Musculoskeletal Imaging," which delves into the recent advancements in imaging for Head and Neck (sense) pathologies and Musculoskeletal (motion) lesions and with skills enhancement.

The Scientific Committee, together with the rest of the organizing committees, has prepared a very comprehensive program with international and local speakers and facilitators. We have the luminaries in Head and Neck imaging in the person of Dr. Lawrence Ginsberg from University of Texas Medical Branch at Galveston and Dr. Alvin Soon from the Singapore Radiological Society. We also have stalwarts in Musculoskeletal Imaging, Dr. Steven Wong, and Dr. Cynthia Peter from the Singapore Radiological Society.

An interesting innovation on the third day of the Convention are the Simultaneous Workshops on CT and MRI of the cranial nerves, knee, and temporal bones as well as with the Musculoskeletal Ultrasound Workshop on the shoulder, wrist and knee joints facilitated by very able imaging experts. To highlight the MSK Ultrasound Workshop, participants have the chance to meet and scan four PBA basketball legends who will serve as the special patient models.

JAC 2024 stands as an exceptional opportunity for the participants to engage in the latest advancements in radiology, immerse in insightful discussions and build connections with mentors, colleagues, trainees, partners in the allied health profession and our ever-supportive industrial partners.

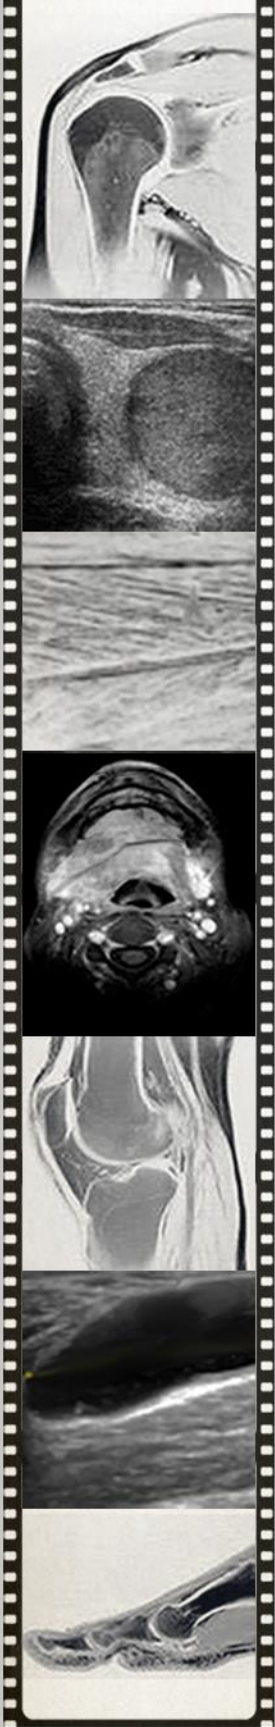

Once again, I would like to acknowledge the incredible effort of the organizing committee. And we thank all the sponsors, volunteers and participants, who are integral to the success of JAC 2024. Let us make the most of JAC 2024!

Mabuhay!

Filipinas R. Rojo, MD, FPCR

Convention Chair

Joint Annual Convention 2024

MESSAGE

On behalf of the 2024 Joint Annual Convention Organizing Committee, it is my pleasure and privilege to welcome all faculty, participants, supporters and guests to this year's conference themed "Sense and Motion: Essentials and Updates in Head and Neck and Musculoskeletal Imaging".

Our lineup of expert speakers and engaging workshops is designed to ignite your passion and expand your horizons in the fields of head and neck and musculoskeletal imaging. We intentionally made sure that the topics be engaging and applicable to the common issues we face in our day-to-day practice. This will be an opportunity for us to learn from each other and grow together in these challenging fields. Let us explore the dynamic interplay of a series of lectures and workshops in store in this three-day event.

Thank you and welcome to our 2024 CTMRISP and USP Joint Annual Convention . Looking forward to a meaningful and enriching experience.

ABOUT THE CONVENTION

The 2024 Joint Annual Convention of the **Ultrasound Society of the Philippines (USP)** and **Computed Tomography & Magnetic Resonance Imaging Society of the Philippines (CT-MRISP)** is held on October 10 to 12, 2024, with the theme **“Sense and Motion: Essentials and Updates in Head and Neck and Musculoskeletal Imaging.”** The two organizations are subspecialty societies of the Philippine College of Radiology (PCR), which is a division of the Philippine Medical Association (PMA).

The organizers bring together both international and home-grown experts as faculty, prepared a comprehensive academic syllabus and put together technical exhibitions for the three-day convention. Developments and updates regarding head and neck and musculoskeletal imaging are discussed by speakers, and technology advances and innovations are showcased to enhance the learning of experience of the attendees.

PAUL E. PEREZ, MD

Education and Training

- Doctor of Medicine, De La Salle College of Medicine

Society Affiliations and Positions

- Associate Active Consultant, De La Salle - University Medical Center
- Assistant Professor V, De La Salle - Health Sciences Institute College of Medicine
- Fellow, Ultrasound Society of the Philippines
- Fellow, CT-MRI Society of the Philippines
- Member, Skeletal Radiology Society of the Philippines
- Member, European Society of Radiology
- Member, European Society of Musculoskeletal Radiology

FACILITATORS

ROGER S. DE VENECIA, MD

Education and Training

- Doctor of Medicine, Our Lady of Fatima University
- Masters in Management Major in Hospital Administration, Philippine Central University

Society Affiliations and Positions

- Board of Trustees, Ultrasound Society of the Philippines (2019-2023)
- Fellow, Ultrasound Society of the Philippines
- Fellow, CT-MRI Society of the Philippines

Hospital Affiliations and Positions

- Active Consultant, Capitol Medical Center
- Active Consultant, Makati Medical Center
- Visiting Consultant, Allied Care Experts Medical Center Pateros and Quezon City
- Visiting Consultant, Unihealth Paranaque Hospital and Medical Center

FACILITATORS

EPHRAIM EMMANUEL A. MANIEGO, MD

Education and Training

- Doctor of Medicine, University of the East Ramon Magsaysay, Quezon City
- Master in Hospital Administration, Phinma St. Jude College, Manila

Society Affiliations and Positions

- Fellow, Ultrasound Society of the Philippines

Hospital Affiliations and Positions

- Courtesy Consultant, Manila Doctors Hospital

PAST ANNUAL CONVENTIONS

<p>2023 JOINT ANNUAL CONVENTION "USP and CT-MRISP: Partners in Leading the Way Towards Innovative Body Imaging" October 19 to 21, 2023 Fiesta Pavilion, Manila Hotel</p>	<p>2009 JOINT ANNUAL CONVENTION "Bracing for the Challenges: Bridging the Gaps in CT, MRI and Ultrasound " October 8 to 10, 2009 Diamond Hotel, Manila</p>
<p>2022 JOINT ANNUAL CONVENTION A Virtual Convention Abdominal Mergers and Acquisitions: "Multimodality Imaging of Tumors, Inflammations, and Fistulas October 22 to 23, 2022</p>	<p>2008 JOINT ANNUAL CONVENTION "Expanding and Refining Our Vision" October 9 to 11, 2008 Hyatt Hotel and Casino Manila</p>
<p>2021 JOINT ANNUAL CONVENTION A VIRTUAL CONJOINT SESSION WITH ASIAN OCEANIAN SCHOOL OF RADIOLOGY (AOSOR) "MRI & Ultrasound in Breast Imaging" October 22 to 23, 2021</p>	<p>2007 JOINT ANNUAL CONVENTION "Transcending Borders with Ultrasound, CT and MRI" October 25 to 27, 2007 Centennial Hall, Manila Hotel</p>
<p>2019 JOINT ANNUAL CONVENTION "Basic and Advanced Imaging: Heading Down to Sound Decisions" October 24 to 26, 2019 Fiesta Pavilion, Manila Hotel</p>	<p>2006 JOINT ANNUAL CONVENTION "Experience" October 5 to 7, 2006 Centennial Hall, Manila Hotel</p>
<p>2018 JOINT ANNUAL CONVENTION "Concepts and Trends: Neck and Thoracic Imaging from Diagnosis to Intervention" October 25 to 27, 2018 Fiesta Pavilion, Manila Hotel</p>	<p>2005 CT-MRISP ANNUAL CONVENTION "Tumors in Focus" October 15 to 16, 2005 UST-FMS CME Auditorium, Manila</p>
<p>2017 JOINT ANNUAL CONVENTION "Abdominal Imaging" October 5 to 7, 2017 Fiesta Pavilion, Manila Hotel</p>	<p>2005 USP ANNUAL CONVENTION "Wonders and Challenges of Ultrasound" October 1 to 2, 2005 EDSA Shangrila, Mandaluyong City</p>
<p>2016 JOINT ANNUAL CONVENTION "STAT Radiology: Current Practices in Critical Care Imaging" October 6 to 8, 2016 Fiesta Pavilion, Manila Hotel</p>	<p>2004 JOINT ANNUAL CONVENTION "Gems in Cross-Sectional Imaging and Intervention" October 15 to 17, 2004 EDSA Shangrila, Mandaluyong City</p>
<p>2015 JOINT ANNUAL CONVENTION "Transcending Role of Radiologists in Emergency Imaging" October 15 to 17, 2015 Fiesta Pavilion, Manila Hotel</p>	<p>2003 JOINT ANNUAL CONVENTION "Musculoskeletal and Women's Imaging Embracing New Realities/Forging New Ties" October 11 to 12, 2003 SEAMEO INNOTECH, Quezon City</p>
<p>2014 JOINT ANNUAL CONVENTION "Practical Insights in Urogenital and Pelvic Imaging" October 9 to 11, 2014 Fiesta Pavilion, Manila Hotel</p>	<p>2002 USP ANNUAL CONVENTION "Beyond the Gray Scale" October 5 to 6, 2002 Centennial Hall, Manila Hotel</p>
<p>2013 JOINT ANNUAL CONVENTION "Keeping upfront in the Expanding Horizons of Musculoskeletal and Body Imaging" October 17 to 19, 2013 Fiesta Pavilion, Manila Hotel</p>	<p>2002 CT-MRISP ANNUAL CONVENTION "Emerging Horizon in Cancer Imaging" October 12 to 13, 2002 UST-FMS CME Auditorium, Manila</p>
<p>2012 JOINT ANNUAL CONVENTION AND ASIAN OCEANIC SOCIETY OF PEDIATRIC RADIOLOGY (AOSPR) CONGRESS "Problem-Based Approach to Pediatric Medical Imaging" October 18 to 20, 2012 SMX Convention Center, Pasay City</p>	<p>2001 CT-MRISP ANNUAL CONVENTION October 5 to 6, 2001 St. Luke's Medical Center, Quezon City</p>
<p>2011 JOINT ANNUAL CONVENTION "More Than Meets The Eye: Neuro-Ophtha and Vascular Imaging in the New Decade" October 20 to 22, 2011 Centennial Hall, Manila Hotel</p>	<p>2000 CT-MRISP ANNUAL CONVENTION "Current Imaging Practices in CT-MRI Body Imaging" October 2000 UST-FMS CME Auditorium, Manila</p>
<p>2010 JOINT ANNUAL CONVENTION "Translating Abdominal Imaging In Medical Practice" October 21 to 23, 2010 Hyatt Hotel And Casino Manila</p>	<p>1999 CT-MRISP ANNUAL CONVENTION "Essentials in Neuroimaging " October 3, 1999 UST-FMS CME Auditorium, Manila</p>
	<p>1998 CT-MRISP ANNUAL CONVENTION October 18, 1998 UST-FMS CME Auditorium, Manila</p>

SCIENTIFIC PROGRAM

DAY 1 Thursday
OCTOBER 10, 2024

- 7:00 - 8:00 a.m.** **REGISTRATION**
- 8:00 - 9:00 a.m.** **OPENING CEREMONIES**
- 9:00 - 10:00 a.m.** **Food and Drug Administration
Licensing of Machines and
CT/MRI and Ultrasound Contrasts**
Dr. Samuel Zacate
- 10:00 - 10:30 a.m.** **RIBBON-CUTTING OF EXHIBITS**
BREAK
- 10:30 - 11:00 a.m.** **MRI of the Knee Articular Cartilage**
Dr. Steven Wong
- 11:00 - 11:30 a.m.** **Pitfalls in Spine Reporting**
Dr. Steven Wong
- 11:30 - 12:00 n.n.** **Imaging of Elbow Trauma**
Dr. Steven Wong
- 12:00 - 1:00 p.m.** *LUNCH SYMPOSIUM*
By United Imaging
**5T Ultra-High Field Clinical MRI:
Innovation, Integration, and Beyond**
Dr. Dileep Kumar
- 1:00 - 1:30 p.m.** **Don't Touch Lesions: Revisited**
Dr. Cynthia Peter
- 1:30 - 2:00 p.m.** **Comprehensive Review of Arthritides**
Dr. Cynthia Peter
- 2:00 - 2:30 p.m.** **MRI of the Wrist**
Dr. Cynthia Peter
- 2:30 - 3:00 p.m.** **Impingement Syndromes**
Dr. Melodia Geslani
- 3:00 - 4:00 p.m.** *BREAK*
- 4:00 - 6:00 p.m.** **USP ANNUAL BUSINESS MEETING**

Moderators

Dr. Melani Manio (AM)
Dr. Brenda Policarpio (PM)

SCIENTIFIC PROGRAM

DAY 2 Friday
OCTOBER 11, 2024

- 7:00 - 8:00 a.m.** **REGISTRATION**
- 8:00 - 8:30 a.m.** **True Confessions: The Cases I Missed or Misinterpreted**
Dr. Lawrence Ginsberg
- 8:30 - 9:00 a.m.** **Imaging of Oral Cavity Tumors**
Dr. Lawrence Ginsberg
- 9:00 - 9:30 a.m.** **Avoiding Misdiagnosis in Head & Neck Imaging**
Dr. Lawrence Ginsberg
- 9:30 - 10:00 a.m.** **Post-Treatment Head & Neck Imaging**
Dr. Lawrence Ginsberg
- 10:00 - 10:30 a.m.** *BREAK*
Presentation by Bayer Philippines
- 10:30 - 11:00 a.m.** **Perineural Tumor Spread**
Dr. Lawrence Ginsberg
- 11:00 - 11:30 a.m.** **Analysis of Head and Neck Lesions Found or Missed on Spine Imaging**
Dr. Lawrence Ginsberg
- 11:30 - 12:00 n.n.** **Creating a Culture of Wellness in Radiology Practice and Training**
Dr. Josefina Ly-Uson
- 12:00 - 1:00 p.m.** *LUNCH SYMPOSIUM*
By Siemens Healthineers
Empowering You with MAGNETOM Flow: Revolutionizing MR Imaging
Mr. Chen Wei
- 1:00 - 1:30 p.m.** **Advanced Imaging, Anatomy, and Pathology of the Larynx**
Dr. Alvin Soon
- 1:30 - 2:00 p.m.** **Tumors of the Salivary Gland**
Dr. Alvin Soon
- 2:00 - 2:30 p.m.** **Parathyroid Imaging**
Dr. Alvin Soon
- 2:30 - 3:00 p.m.** *BREAK*
Presentation by Himex Corporation
- 3:00 - 5:00 p.m.** **CT-MRISP ANNUAL BUSINESS MEETING**
- 5:00 - 9:00 p.m.** **FELLOWSHIP NIGHT & INDUCTION CEREMONIES**

Moderators

Dr. Roger De Venecia (AM)
Dr. Imarzen Elepaño (PM)

SCIENTIFIC PROGRAM

DAY 3 Saturday

OCTOBER 12, 2024

7:00 - 8:30 a.m. **REGISTRATION**

8:30 - 9:00 a.m. **Clinical Applications of DWI
Sequence in Brain & Neck Imaging**
Dr. Maria Lourdes Badion

9:00 - 9:30 a.m. **Diffusion-Weighted Magnetic Resonance Imaging:
Clinical Applications (Whole Body)**
Dr. Maria Lourdes Badion

9:30 - 10:00 a.m. *BREAK*

SIMULTANEOUS WORKSHOPS

10:00 - 10:30 a.m. **CT-MRI PLENARY WORKSHOP
MR Imaging of Cranial Nerves: CISS/Turbo**
Dr. Denver Sapo

10:30 - 11:00 a.m. **Knee MRI**
Dr. Mary Antonette Lappay

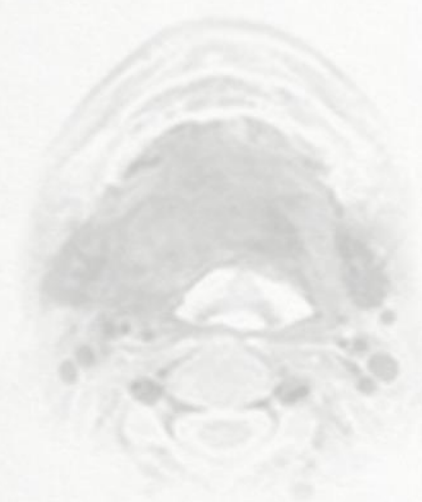

11:00 - 12:00 n.n. **Intricacies of Temporal Bone
Anatomy and Pathology**
Dr. Gil Maglalang

8:30 - 12:00 n.n. **MSK ULTRASOUND WORKSHOP
Shoulder, Wrist, Knee**
Dr. Paul Perez
Dr. Jelvin Co
Dr. Roger De Venecia
Dr. Ephraim Emmanuel Maniego

12:00 - 1:00 p.m. *LUNCH BREAK*

1:00 - 2:00 p.m. **CLOSING CEREMONIES**

Moderator *Dr. Tamara Louise Razon-Cuenza
Dr. Michael Rico Mesina*

SOMATOM Pro.Pulse

Unlock Dual Source CT. Everywhere.

➤ [siemens-healthineers/somatom-propulse](https://www.siemens-healthineers.com/somatom-propulse)

Dual Source CT: One-of-a-kind imaging technology

High-quality images, enabled by the high power, speed, and precision that only Dual Source CT can provide:

Intelligent workflow simplifies advanced imaging

myExam Companion helps users every step of the way, making the exam more comfortable while improving consistency:

62% time savings in Coronary CTA, **50%** in Dual Energy.

High-end technology is now cost efficient

An intelligently designed scanner with **reduced TCO** from the start: low installation cost, comprehensive services, a broad education portfolio and ample fleet management tools.

Provide advanced diagnostic imaging for all patients.

Today, there are still too many patients who do not receive high-quality CT imaging for a conclusive diagnosis.

With our one-of-a-kind Dual Source technology and intelligent workflow guidance from myExam Companion, SOMATOM Pro.Pulse makes advanced CT imaging more accessible.

Designed to help you achieve operational excellence, SOMATOM Pro.Pulse is a smart investment for a wide range of hospitals and imaging centers.

High-quality cardiovascular imaging even in the most challenging cases

Reduced motion artifacts in high heart rates and arrhythmic patients

Temporal resolution of 86 ms enables systolic imaging that provides high image quality in challenging patients

ECG Gated acquisition in Flash mode

ECG-gated high pitch TAVI angio mode allows scanning the heart, aorta, and femoral arteries, covering 700 mm of anatomy in less than 4 seconds

Reduction of contrast media up to 40%

Thanks to its powerful X-ray tube, SOMATOM Pro.Pulse reduces the contrast up to 40%*

MAGNETOM Flow

Empowering you.

siemens-healthineers.com/flow

Introducing MAGNETOM Flow^{*} – the pioneering next-generation 1.5T MRI platform that empowers you with a game-changing new flow for daily care. Ushering in a new era of sustainable and helium-independent MRI, MAGNETOM Flow empowers you across the entire imaging process from start to finish with unmatched workflow simplicity, elevated patient experience and pioneering AI-enhanced imaging for high-quality results at unrivaled speed.

MAGNETOM Flow – a new flow in MRI that empowers you to perform at your best!

^{*}The platform is still under development and not commercially available. Its future availability cannot be ensured.
